Full Circle Farms is an actual farm located in North Texas. Situated on twelve acres in southwest Fannin County, the farm is a U-Pick-It business which makes blackberries, blueberries, lavender and vegetables available to the general public. The product of a mutual dream shared by Keith and Marti Mumaw along with A.E. "Butch" Plumb, Marti's big brother. Full Circle Farms is designed for family fun and enjoyment.

At some point in the future, there are plans for a winery to take the Black Spanish, Merlot and Blanc Dubious grapes grown at the farm and turn them into a magic nectar to be shared by all of legal age.

As with all of the products produced at the farm, our lavender body products are of the highest quality and give those who purchase them, a soothing of the body and mind, the way that only Lavender was made to do.

We hope that you enjoy our products and want you know that we are always open to suggestions, comments and of course complaints.

Thank you for being part of our family!

Keith and Marti Mumaw
